As **Evans Bank** completes its online and mobile banking upgrade, you will need to modify your QuickBooks settings to ensure the smooth transition of your data.

To complete these instructions, you will need your User ID and Password for Evans Online Banking.

Thank you for making these important changes!

Disconnect Accounts

1. Choose the **Lists** menu > **Chart of Accounts**.
2. Select the account you want to deactivate.
3. Click **Edit** menu > **Edit Account**.
4. Click on the **Bank Feed Settings** tab in the **Edit Account** window.

Reconnect Accounts

1. Log in to **Evans Online Banking** and download your QuickBooks Web Connect file.
2. Click **File > Utilities > Import > Web Connect Files**.

NOTE: Take note of the date you last had a successful connection. If you have overlapping dates in the web-connect process, you may end up with duplicate transactions.

3. If prompted for connectivity type, select **Web Connect**.
4. Click the **Import new transactions now** radio button, then click **OK**.

NOTE: If you previously removed the check from the "Always give me the option of saving to a file..." option, then this dialog will not display.

5. In the **Select Bank Account** dialog, click **Use an existing QuickBooks** account.
6. In the corresponding drop-down list, select your QuickBooks account, and click **Continue**.
7. Confirm the prompt by clicking **OK**.
8. Repeat steps for each account to be reconnected.

IMPORTANT: Verify that all transactions downloaded successfully into your account registers.

Re-enable Express Mode (if necessary)

NOTE: If you prefer Classic Mode (Register Mode), you are finished with your conversion. If you use Express Mode for online banking, you may now re-enable the mode.

For instructions to enable Express Mode, choose **Help > QuickBooks Help**. Search for **Banking Feed Modes**, then select **Bank Feed Modes overview**, and follow the instructions.
